

Debunking Myths to End Xenophobia

MYTHS Vs. FACTS

WHAT IS XENOPHOBIA?

Xénos = Stranger
Phóbos = Fear

Xenophobia =
Fear of the Stranger

Refugees

are persons fleeing armed conflicts and persecution.

Migrants

are persons who move for different reasons, for instance to improve their lives at work, for family reunion, for education.

Myth: "Migrants are hurting my country's economy"

In most OECD* countries migrants contribute more in taxes and social contributions than they receive in individual benefits.

*OECD: The Organisation for Economic Co-operation and Development.

Between 1995 and 2011, European immigrants made a positive contribution of more than £4 billion (\$6.4 billion) to Britain, compared with an overall negative contribution of £591 billion for native Britons.

The Economist

Typically, immigrants will pay a net \$80,000 more in taxes during their lifetimes than they collect in government services in the US.

US National Academy of Science

Myth: "Migrants are taking jobs away from citizens who need them"

MIGRANTS' SKILLS AND ABILITIES SUPPLEMENT THE HUMAN CAPITAL OF THE LABOR MARKET.

IN THE US, EVIDENCE SHOWS THAT SKILLED IMMIGRANTS CONTRIBUTE TO BOOSTING RESEARCH AND INNOVATION, AS WELL AS TECHNOLOGICAL PROGRESS, WHICH LEADS TO MORE JOBS.*

*OECD Report 2014

Myth: "Keeping migrants away will ensure safety in my country"

Did you know that non-citizens account for only 5% of the US prison population?*
